

## **The Company Profile**

# OUR INTRODUCTION

# WHO WE ARE?

Huntertech Ventures is a company which provides an extensive range of services such as web designing, graphic designing, animated video making, ERP software development, mobile app development, and most importantly digital marketing to take our client's business to an all new level and publicize it.

We have gathered a talented team of transcendent level technical writers, web designers, developers, marketers, communication specialists, project managers and business developers to make our service excel from every aspect. We all brainstorm on the projects and our consolidated ideas give a different dimension to it.

HUNTERTECH

# OUR STRATEGY

Our team uses a straightforward, efficient and effective methodology for development execution that we call **SMART**

## **S**PECIFIC

We sit down with you to define your objectives precisely and lay out a detailed plan to accomplish them.

## **M**EASURABLE

To keep your project progress on track, we segment the job into manageable chunks and establish milestones and measurements for each stage.

## **A**GREED UPON

Once you have signed off on the plan, you can be assured that we will come through for you.

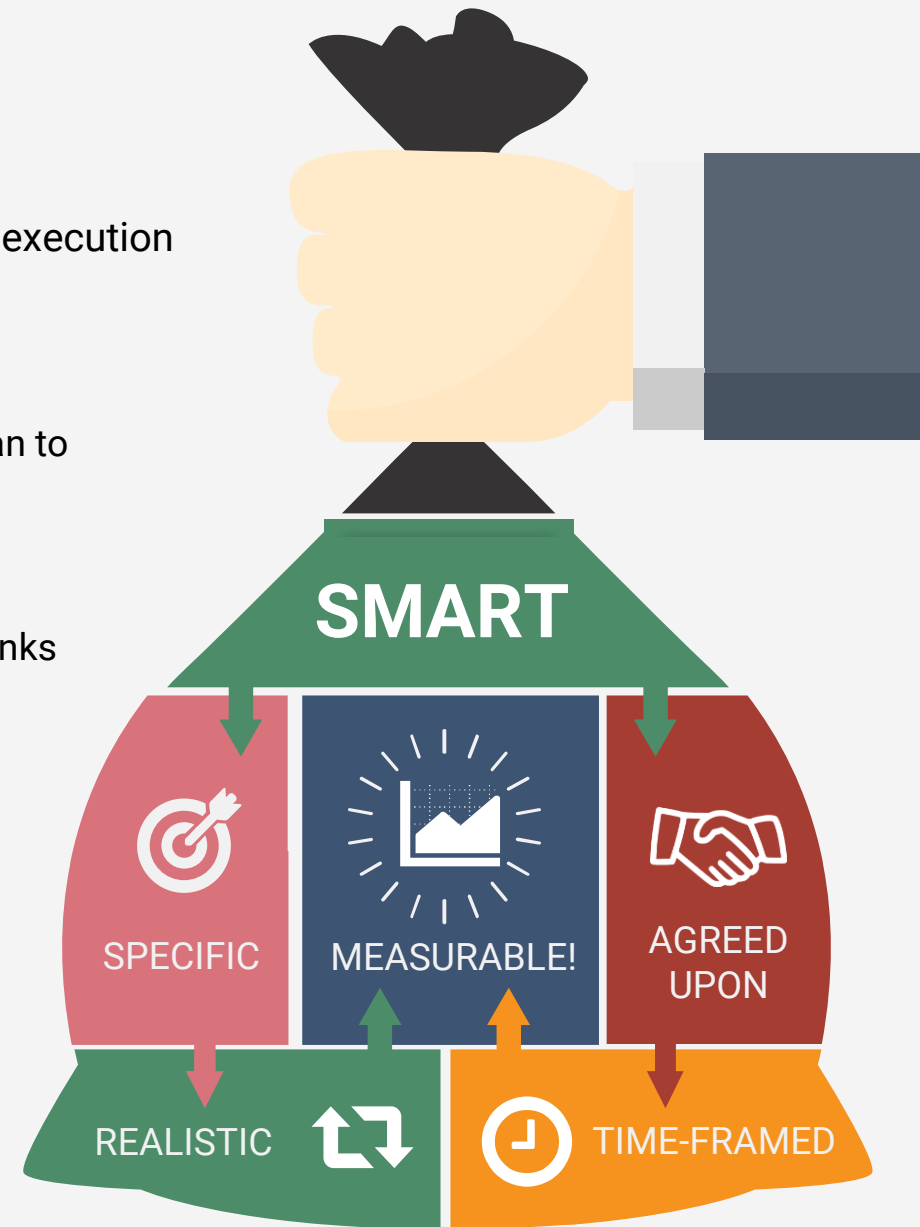

## **R**EALISTIC

We ensure that our plans are thorough and that we apply the appropriate resources to get the job done right.

## **T**IME-FRAMED

Your project stays on track because we have the strongest professional commitment to honoring agreed-upon timelines.

HUNTERTECH

# OUR PROCESS

We follow a seven-step methodology for delivering the services. The seven step process includes the following deliverables based on your requirement.

## 1. PROJECT DISCOVERY

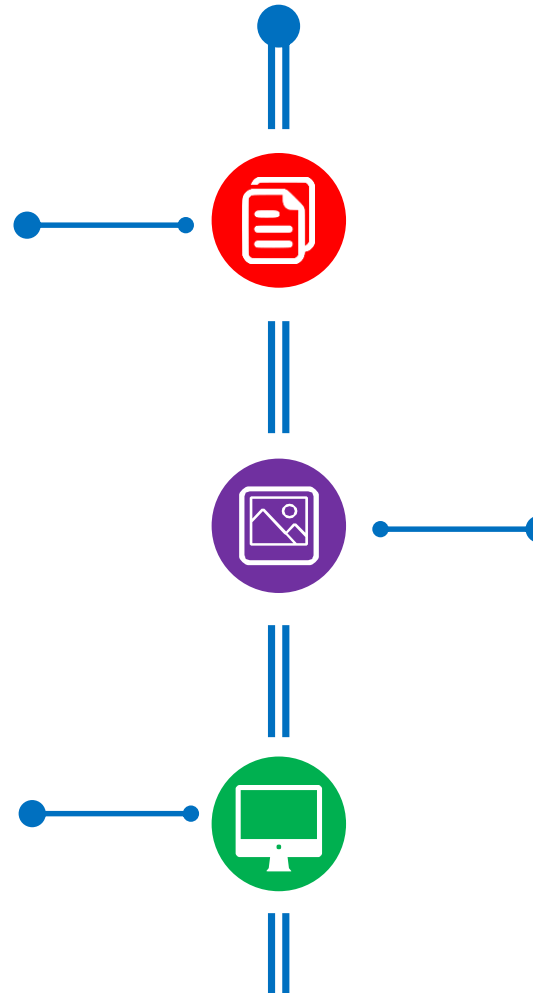

- In-depth research of the field, market pool, and target population
- Fine tuning the technological route for the design and development of the project
- Determining the full and final in-depth scope of the project
- Creation of Software Requirement Specification

## 3. FRONT END PROGRAMMING

- Advanced programming and integration of latest front-end technologies for enhanced user experience and usability based on the wireframes.

## 2. WIREFRAMING / ARCHITECTURE

- Conception and creation of the graphic elements of the application, including color scheme, atmosphere, general look and feel, etc.
- Actual design of the application based on the layouts and structures

#### 4. SERVER-SIDE DEVELOPMENT

- Integration of the databases
- Actual programming work to implement the back-end and full administration

#### 5. QUALITY ASSURANCE

- Extensive testing to ensure the application is 100% bug free and is fully compatible
- Fine tuning the final details of the application design and features

#### 6. GO LIVE

- Migration of the application to the live server and launch!

Through the above 6 steps process we will deliver all the services designed to exceed your expectations and needs. Once a client of Huntertech Ventures, our project manager will regularly communicate with your team, and keep you updated on the team's progress.
